Ecw—0.

Sir, I have the honor to report that in exercise of the discretion which Colonel Pennycuick conferred on me when leaving, I have ventured on the following departures from the distribution of the Tools and Plant of this Division into (a) and (b) lists in G. O. No. 935 I dated 7th November 1895.

1st. I have taken the 2nd Oil engine out of its launch and sent it to the Public Works Stores. It is — as reported in my No. 135 C.E. dated 5-[illegible]-95 — perfectly useless and entirely

entirely out of place here.

2nd I have transferred the marginally noted articles to the Departments and divisions named.

Railway Plant. Consulting Architect Division.
1 Jim Crow — Executive Engineer Kistna Western Division.
1 Set Taps and dies. Executive Engineer Nagapatam Division.
Telegraph Department. 40 Insulators. 3½ mile galvanized wire.

3rd I have sold one old 6 HP Portable engine to the Trichinopoly Roman Catholic mission, and the following articles to Messrs Raju & Co Madras.

1 incomplete 1 ton-crane.
1 old 8 HP Portable engine
1 hydraulic press.
4 old boilers
1 2" centrifugal pump.

I have the honor to be
Sir,
Your most obedient Servant

S. D. Vears.

E.I.

ENCLOSURES.

From to

Up to the present we cannot find any use for the launch — If the 2nd proposal is carried out the cost of transport is only Rs 350 — I think it would be folly to spend Rs 500 in putting the launch together again — it might be disposed of in pieces as if a purchaser is found as likely as not he will want the launch transported —

1893

No. 223 C.E. Office of Supt. of Works
No. I Periyar Divn.
Periyar 15th March 1896.

From

S. D. Pears Esquire,
Superintendent of Works
No. I Periyar Division

To

The Chief Engineer
for Irrigation Madras

Sir,

In reply to para 1 of your No. 7 P.R. dated 9th March 1896, I have the honor to report that I have today heard from the Traffic Manager of the South Indian Railway that he is prepared to convey the oil launch to Madras, but, as a special truck will have to be prepared, the total cost will be Rs 281. I also shall have to prepare a special truck here which will cost about Rs 100, and the road journey to Ammayanayakanur

will

will cost about Rs 200. Add to this, Rs 100 for beaching and loading on truck at Periyar, Rs 100 for unloading and conveying to destination in Madras, Rs 119 for contingencies and Rs 200 for repainting, caulking &c., and the total cost will come to Rs ~~1000~~ 1,100.

2. There are two other alternatives. 1st The launch may be dismantled here (Rs 150) conveyed to Madras piecemeal (Rs 200) and put together there (Rs 500), which, with Rs 100 for contingencies, would come to Rs 950. in all.

2nd The launch may be dismantled here without preserving the plank shell (Rs 100) only the ironwork sent to Madras (Rs 100) and a new shell built in Madras (Rs 1000)

Of

3. Of these 3 courses I am inclined to recommend the third. It is very little more expensive than the other two, but it is less troublesome more likely to be accomplished within the estimate, and the result will be a new launch instead of a second-hand one.

4 I may mention that the original cost of the launch to this Division was Rs 3,499, viz Rs 1,650 for the ironwork delivered in Calcutta, Rs 217 for carriage of ironwork from Calcutta to Periyar, and Rs 1,632 for building, fitting and launching at Periyar.

5 In case of your ordering the first of the above 3 courses I would propose to charge the Public Works Stores Rs 2,500 for the launch; in the 2nd alternative Rs 2,000, and in the

the 3rd Rs 1500, delivered in Madras in each case.

I have the honour to be,
Sir,
Your most obedient Servant,

S. D. Vears
